

Hotel LA TAPIAZ

Here it comes!

We have been waiting for it so long, we dreamt it, we wished it ... And, at last, it began to take form; We called it "Project"

Month after month we saw it growing; we described it as "Annexe"

And, at last, it arrived at its term!!

We did away with notions of "Project and Annexe" and for us it's a pleasure to inform you about the official opening of the Hotel La Tapiaz.

BEFORE

... ..

AFTER

Of course, as any new-born in a family it caused us some concerns, our nights and our sleeps had often been disrupted by uncertainty and expectations. It was necessary to coordinate various contractors, to meet the deadline, or to furnish the rooms. But now, even if the elevator is missing for the winter, finally, 8 new rooms and family suites are opening for Half Term 2012, exactly 9 months after the beginning of the works.

Two 29 sqm rooms: A double room featuring a television, a desk, a lounge area, a double bed and a balcony; Bathroom in each, one with bath-tub, the other with shower, separated toilet; One of them is wheelchair accessible.

4 rooms from 31 up to 45 sqm: A double room featuring a television, a desk, a lounge area, a double bed and a balcony; A second double room featuring a bunk beds (90x190cm) or 2 single beds (90x190cm), and a television: A bathroom and a shower-room, separated toilet.

And a 76 sqm duplex room: On the 1st level: A double room featuring a television, a desk, a lounge area, a double bed and a balcony; bathroom with bath and shower, separated toilet. On the 2nd level: a double room featuring a television and a double bed (or 2 single beds); Bunk beds in "coin montagne" area with television, a shower-room and toilet.

We wanted to preserve an authentic wood-dominant decoration combined with traditional stone or calming, soft floor coverings. The cocoon feeling is our creed, that's why we wished to preserve this modern decorative style and the mountain touch.

But, as we can't explain a feeling, come and push the Tapiaz' door to be overwhelmed by the emotion...
